

# Belvedere

## PRODUCT

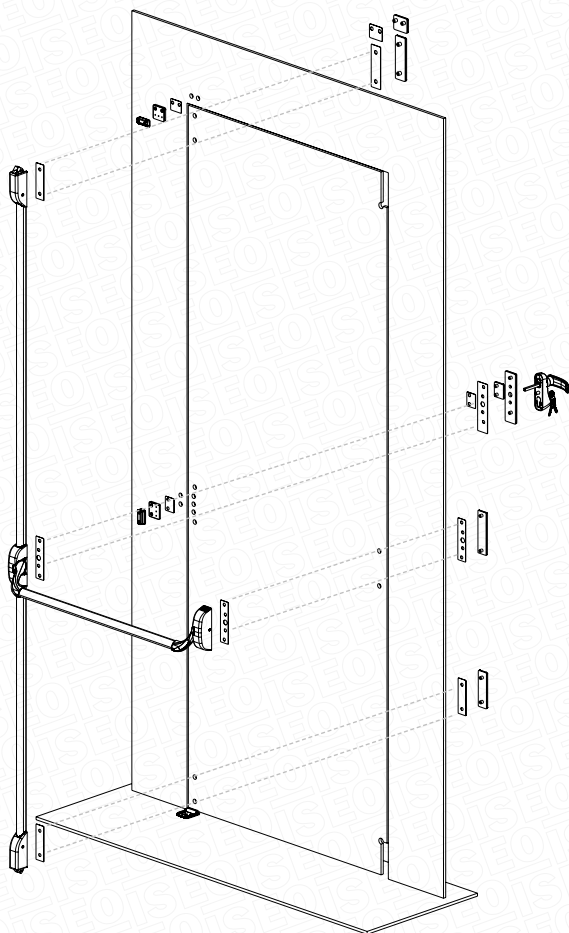

Accessories for the installation of panic and emergency devices on glass doors.

## APPLICATION

Belvedere is an accessory kit for the installation of rim application panic exit and emergency devices on frameless glass doors. The wide choice of accessories with a PVD-stainless finish cater for the installation requirements of all the devices in the Base, Push, Bolt and Pad series when used on single or double leaf doors in any possible configuration. For a particularly stylish appearance, use in conjunction with Iseo panic exit and emergency devices with the same finish.

## HIGHLIGHTS

- Usable together with rim application panic exit and emergency exit devices with 1, 2 and 3 latch points.
- Designed in compliance with the standards EN 1125 and EN179.
- Usable on left or right hinged doors, and on single or double leaf doors.
- Simple to install, with through-screws passing through thickness of door.
