Stylos Smart

All-weather credential reader module

ALL-WEATHER CREDENTIAL READER MODULE

A range of credential readers

Stylos Smart is a range of multistandard readers, available in different versions: with and without display and numeric keypad, for indoor and outdoor use. The LED lighting of the device can be customized with three colours.

Can be used with various ISEO solutions

ISEO locks equipped with a Lockbus interface, such as the Thesis 2.0 electro lock, can be connected directly to credential readers without using external actuators, and can also independently manage double gate situations with interlock functions and sign lights.

Product features

- Memorize up to 300 users credentials
- Records the last 1000 events
- Battery-operated device with charge status detection
