**OPEN YOUR DOOR
WITH YOUR FINGER** 

Discover the latest solution for smart access control by ISEO: it's the new fingerprint reader combined to x1R SMART, the electromechanical lock for armoured doors. Access can be managed with smartphones and ISEO Argo app. Just tap!

What are the advantages? **Fingerprint cannot be stolen or lost and it is practically impossible to copy.**

OPEN YOUR DOOR WITH YOUR FINGER

FINGERPRINT READER

Among the latest products, ISEO presents the fingerprint reader combined to x1R Smart, the electromechanical lock for armoured doors.

The fingerprint is a very secure and convenient authentication credential: it can't be borrowed, stolen or forgotten, and it is almost impossible to forge it.

Furthermore, the reader detects authentic fingerprints and does not allow access with fake fingerprints. You don't have to bring with you an inconvenient bunch of keys anymore!

Thanks to Argo App by ISEO, the electromechanical lock for armoured doors x1R Smart can be opened also by an iOS or Android smartphone, Apple Watch, card, tag and PIN codes.

It is also possible to give access only to certain people to specific areas, even choosing the period. You can retrieve the last 1000 events of each door, including date

and time of the accesses and the unauthorized entrance attempts. With Argo App you can store up to 300 users for each door.

x1R SMART

The x1R SMART motorized lock for armoured doors is one of the products of ISEO Zero1 product range that can be easily programmed and controlled using Argo App. A motor controls x1R SMART opening and closing functions, and the bolt can be operated mechanically using a traditional key in the event of a power outage.

This product is interchangeable with most common mechanical locks: it has the same accessories, and the simple electrical connections make the installation extremely easy. What's more, all the models are reversible, with different bolt protrusions and centre distances.

Argo App

Argo is the free app by ISEO which allows to easily manage access

with a smartphone, with no need of additional software or internet connection.

It is the ideal solution for private houses, small hotels and light commercial contexts.

Besides the electromechanical lock for armoured doors x1R Smart, Argo app can manage and control access of the doors equipped with other opening devices of the Smart range by ISEO: Libra Smart electronic cylinder, Aries Smart electronic trim set, Stylos Smart credential readers, Smart Locker electronic lock for lockers.

OTVORITE VRATA SVOJIM PRSTOM

ČITAČ OTISKA PRSTA

Među najnovijim proizvodima, ISEO predstavlja čitač otiska prsta u kombinaciji sa x1R Smart, elektromehaničkom bravom za blindirana vrata. Otisak prsta je vrlo siguran i pogodan identitet za identifikaciju jer se ne može pozajmljivati, krasti ili zaboraviti, a gotovo je nemoguće i falsifikovati.

Nadalje, čitač otkriva autentične otiske prstiju i ne dozvoljava pristup lažnim otiscima prstiju. Ne morate više sa sobom da nosite nezgodnu gomilu ključeva! Zahvaljujući ISEO Argo App-u, elektromehanička brava za blindirana vrata x1R Smart može se administrirati i iOS ili Android pametnim telefonom, Apple pametnim satom, karticom i PIN kodom.

Moguće je dati pristup samo određenim ljudima, u određene prostore, čak i birajući period. Možete preuzeti poslednjih 1000 događaja sa svih vrata, uključujući datum i vreme pristupa i neovlašćene pokušaje ulaska.

Pomoću aplikacije Argo možete da unesete/administirate do 300 korisnika.

x1R SMART

x1R SMART motorizovana brava za blindirana vrata jedan je od proizvoda ISEO Zero1 asortimana proizvoda koji se mogu lako programirati i kontrolisati pomoću aplikacije Argo. Motor upravlja x1R SMART funkcijama otvaranja i zatvaranja, a može se isto mehanički otključavati i zaključavati tradicionalnim ključem u slučaju nestanka struje. Ovaj proizvod je lako zamenljiv sa većinom uobičajenih mehaničkih brava koje se koriste na blinda vratima jer koristi iste dodatke, a jednostavni električni priključci čine instalaciju izuzetno jednostavnom.

Argo App

Argo je besplatna aplikacija ISEO koja omogućava lako upravljanje pristupom pametnom telefonu, bez potrebe za dodatnim softverom ili internetskom vezom. To je idealno

rešenje za privatne kuće, male hotele i male poslovne zgrade. Pored elektromehaničke brave za blindirana vrata x1R Smart, aplikacija Argo može upravljati i kontrolisati pristup vratima opremljenim drugim uređajima za otvaranje Smart asortimana koje proizvodi ISEO kao što su Libra elektronski cilindar, elektronska kvaka Aries Smart, zidni čitači Stilos Smart, Smart Locker elektronska brava za ormariće.
